

WORLD WIDE VILLAGE

~ INTERNSHIPS ~

WELCOME!

We are so excited that you are considering joining us as an intern in Haiti and know that God has called you to be a part of what He is doing there. The intern program at World Wide Village (WWV) offers college students a unique opportunity to spend time serving in Haiti. Interns will have the opportunity to engage with the local Haitian culture while serving in their area of study.

There are many reasons for choosing to become an Intern with World Wide Village. Some may be testing the waters and considering long-term missions. Some want to dedicate their time to making a difference in the world. Others may be looking to fill a ministry internship requirement as part of their formal education. Our hope is that all interns leave Haiti knowing they have both impacted lives and have been transformed themselves.

INTERNSHIP DETAILS

Our core areas of service include education, healthcare, construction, and agriculture. As we always strive to tell our story better, communications and marketing majors are also very helpful to further our cause. Interns are a key ingredient in the expansion of WWV projects in Haiti.

Projects may include, but are not limited to... journalism, construction, leading school workshops, conducting Bible clubs, teaching English, community outreach, providing healthcare, conducting public health surveys, curriculum development, teacher training, photography, graphic design, marketing, etc.

Intern positions require a great deal of flexibility, patience, and perseverance. Interns must be willing to serve without recognition, love and show grace to all no matter what, both lead and work as part of a team working towards the ultimate goal of transforming impoverished communities and sharing the gospel.
